

Microsoft Business Solutions

eExpense Automated Expense Management

Available with Great Plains Enhance employee productivity and reduce processing costs with expense reporting capabilities that streamline expense management processes, eliminate paper receipts, and enable employees to create and submit reports any time, from any location.

Take the pain out of expense report submissions

Enable employees to submit expense reports quickly and easily, in a browser-based environment that consists of simple checklists and templates with pre-populated data.

Streamline expense management

Reduce the time and cost for processing expenses with automated, Web-based processes that help ensure accuracy, speed reimbursement, and eliminate the need for traditional spreadsheets.

Share information

Provide a centralized view of expense trends and data, empowering your company to negotiate with chosen vendors.

Integrate seamlessly

Integrate your expense data with Payables Management and General Ledger, or import data directly into other Microsoft® Business Solutions applications.

Shrink costs by eliminating paper receipts

With eExpense Receipt Imaging, employees can submit, review and audit expense receipts electronically, without the costs and complications of managing paper receipts.

Enhance productivity with eExpense Offline

Free employees who travel to focus on core business initiatives, rather than on administrative tasks, by enabling them to create reports offline and then submit them the next time they go online.

Take the hassle (and expense) out of common tasks

eExpense Features List

eExpense: Online Expense Reporting

- Enable employees to submit expense reports online, using simple checklists and templates.
- Pre-populate expense reports with existing employee information or incorporate charges from corporate credit cards.

- Automatically submit expenses against pre-configured or custom cost centers mapped to General Ledger accounts. Customized email-based approval helps ensure a timely and accurate report the first time around.
- Capture out-of-pocket expenses instantly with Palm Operating System-based devices that integrate smoothly with eExpense.
- Use eExpense as a mini-intranet to share critical information in an environment which includes security enhancements, and provide budget managers with a central location to view expense data and analyze trends.
- Deploy over the Internet to minimize IT resources and utilize easy-to-use wizards to add new employees, import existing employee data files, and create powerful auditing rules.
- View, sort, and filter a wide range of best practices reports, or custom-configure your own reports to isolate trends, forecast budgets and see which expenses need better management.
- View and filter vendor statistics, including performing vendor reconciliation, to ensure proper vendor usage with employees.

eExpense Offline: Anytime, Anywhere Expense Reporting

- Enable complex itemization of expenses while offline, including automated pre-population and calculation of foreign exchange rates.
- Ensure efficient processing and timely reimbursement with seamless transfer of expense transactions to eExpense.

eExpense Receipt Imaging: Electronic Receipt Imaging Service

- Submit, review and store expense receipts electronically, making the expense submission and approval process fast and easy.
- Eliminate costs for managing and storing paper receipts, with no up front costs for imaging hardware and software.

eExpense components are sold separately and are not available with Microsoft Business Solutions-Great Plains Standard..
